

**Journal of the Indian Institute of Science  
Bangalore 560 012 India**

(Section B: Physical and Chemical Sciences)

Volume 65

May 1984

Number 5

**CONTENTS**

**Fluid Mechanics**

- S.P. Bhattacharyya and S. Nadoor      A comparison between the 'local potential method' and the 'exact numerical procedure' (Application to the stability analysis of a hot layer of fluid)      71

**Short Communications**

**Elasticity**

- Amarendra Das and Asa Chakraborty      Radial deformation and stresses in anisotropic nonhomogeneous elastic media      79
- P. Biswas and P. Kapoor      Non-linear free vibrations of orthotropic circular plates at elevated temperature      87

**Astrophysics**

- S. Karanjai      On some transcendental equations of astrophysical interest      95

**Analytical Chemistry**

- M.Z. Hasan, Animesh Kumar and S.P. Pande      Occurrence of cadmium in water; Its determination by flameless atomic absorption spectrophotometry      105
- D.N. Purohit and Jesus Blanco      Spectrophotometric studies of nickel complex of 3-hydroxy-3-phenyl-1-0-carboxy-phenyl triazene      111
- Sushma Shivpuri, M.P. Tyagi and D.N. Purohit      Cycloalkyl aryl amino acids in spectrophotometric determination of copper      115
- K. Hussain Reddy, K.M.M.S. Prakash, K. Girdidhara Reddy and D. Venkata Reddy      1,3-cyclohexanedione bithiosemicarbazone monohydrochloride as a chromogenic reagent for the rapid spectrophotometric determination of platinum: Physicochemical data of platinum complex      119

**Electrochemistry**

- R. Sreenivasulu, V.S. Raghavendra Rao and K. Hussain Reddy      Polarographic study of the composition and stability constants of cadmium (II) complexes with new Schiff bases      127

**Book Reviews**

131
