CONTENTS

Operator Theory

- N.K. Chakravarty and Swapna Roy Paladhi On the spectral resolution of a differential operator 143

Differential Equations

- Prabir Kumar Sengupta The limit-2 case of a second order differential system 163

Short Communications

Differential Equations

- Jyoti Das and Jayasri Sett A note on the separation property of symmetric fourth-order differential expressions 173

Integral Equations

- A. Chakrabarti Derivation of the solution of a special singular integral equation 179

Vibrations

- Samir Das Vibrations of orthotropic polygonal plates 185

Inorganic Chemistry

- G.C Bhatnagar and S.B. Saxena Studies on chelation reaction of cyclophosphamide (CPM), a valuable anti-cancer drug with carcinogenic metal ions Cu(II) and Co(II) 191

Physical Chemistry

- Sanjay Kumar Ray Effect of surface modification on absorption properties of metal surfaces 197

Groundwater Geochemistry

- K.C.B. Raju, V. Ramesam and R.S. Chauhan Effect of change in ecosystem on ground water quality 203
