

**Journal of the Indian Institute of Science
Bangalore 560 012, India**

Volume 66

August 1986

Number 8

CONTENTS

Plant Biochemistry

- Satyanarayana Ganapathi Raju and C.S. Vaidyanathan Biodegradation of dl-synephrine: A novel pathway in *Nocardia* sp. DM1 511

Internal Waves

- Krishna Kundu Singularities in a two-fluid medium separated by an inertial surface 521

Finite Geometry

- M. L. Narayana Rao, K. Kuppuswamy Rao and Vinod Joshi A translation plane of Order 25 with small translation complement 533

Short Communications

Fluid Mechanics

- A. Ramachandra Rao Note on pulsatile viscous flow in a tube of elliptical cross-section 543

Differential Equations

- Jyoti Das and Jayasri Sett Separation and limit-classification of special fourth-order differential expression 547

Pharmaceutical Technology

- Y. V. Pathak and A. K. Dorle Evaluation of rosin as film coating material for enteric coating 549

IISc Theses Abstracts
