Volume 67

Mar.-Apr. 1987

Numbers 3 & 4

CONTENTS

Thermodynamics

- A.K. Mukherjee and
T.R. Das Determination of thermal conductivity of
organic liquids and liquid mixtures by
thermal comparator method 75

Optimization

- Anand M. Sharan and
Bhimavarapu S. Reddy The solution of the non-linear heat trans-
fer problems having mixed and non-
linear boundary conditions using optimi-
zation principles 83

Numerical Modelling

- Liaquat Ali Khan A numerical model for the simulation of
tides in estuarial networks 93

Short Communications

Experimental Fluid Mechanics

- M.A. Badri Narayanan Effect of primary jet excitation on the per-
formance of an ejector 109

Photoelasticity

- P.V. Reddy and
N. Srinivasa Murthy Some observations on cold casting of
Araldite sheets for photoelastic analysis 115
