

## STUDIES ON ACTIVE CARBON

PART I.—EVALUATION OF ACTIVATED CHARCOAL

*By M. V. C. Sastri and K. R. Krishnaswami*

## REACTIONS OF CHROMATES AT HIGH TEMPERATURES

PART XXI.—MECHANISM OF THE REACTIONS OF CHROMATES  
AT HIGH TEMPERATURES

*By D. S. Datar*

## STUDIES IN BINARY SYSTEMS

*By (Miss) Nagamani Shama Rao and S. K. K. Jatkar*

## STUDIES IN BINARY SYSTEMS

PART V.—SYSTEM BENZENE-ETHYL ALCOHOL

*By (Miss) Nagamani Shama Rao and S. K. K. Jatkar*

## STUDIES IN BINARY SYSTEMS

PART VI.—SYSTEM *ISO*AMYL ALCOHOL—BENZENE

*By (Miss) Nagamani Shama Rao and S. K. K. Jatkar*

## STUDIES IN BINARY SYSTEMS

PART VII.—SYSTEM *ISO*AMYL ALCOHOL-CARBON TETRACHLORIDE

*By (Miss) Nagamani Shama Rao and S. K. K. Jatkar*

## STUDIES IN BINARY SYSTEMS

PART VIII.—SYSTEM BENZENE—CARBON TETRACHLORIDE

*By (Miss) Nagamani Shama Rao and S. K. K. Jatkar*

STUDIES IN BINARY SYSTEMS

PART IX.—SYSTEM BENZENE—ACETIC ACID

*By (Miss) Nagamani Shama Rao and S. K. K. Jathkar*

STUDIES IN BINARY SYSTEMS

PART X.—SYSTEM ETHYL ALCOHOL—WATER

*By (Miss) Nagamani Shama Rao and S. K. K. Jathkar*

STUDIES ON ACTIVE CARBON

Part II. Ionic Adsorption by Active Carbon

*By M. V. C. Sastri*

STUDIES ON ACTIVE CARBON

Part III. The pH-Values of Aqueous Suspensions of  
Activated Charcoal

*By M. V. C. Sastri*

STUDIES ON ACTIVE CARBON

Part IV. Adsorption of Methylene Blue by Activated  
Charcoal: Effect of Anions and Cations

*By M. V. C. Sastri*

STUDIES ON ACTIVE CARBON

Part V. Adsorption of Methylene Blue by Activated  
Charcoal: Examination of the Theory of  
Hydrolytic Adsorption

*By M. V. C. Sastri*
