

**CHANGES IN THE CAROTENE AND ASCORBIC ACID
CONTENT OF MANGOES DURING RIPENING.**

By G B Ramasarma and B N Banerjee

**A CHEMICAL AND MINERALOGICAL STUDY OF THE
CELESTITE FROM THE PHOSPHATIC NODULES OF
THE CRETACEOUS ROCKS OF TRICHY***

By N Jayaraman

ON THE ORIGIN OF THE CHARNOCKITES

By N Jayaraman

**ORIGIN OF CELESTITE IN THE CRETACEOUS
BEDS OF TRICHY**

By N Jayaraman

SUPPLEMENT TO THE PAPER ON BLUE QUARTZ

[REPLY TO THE CRITICISM OF DR ALFRED POSTELMANN
OF KONIGSBERG]

By N Jayaraman

**A CHEMICAL STUDY OF THE NELLORE BERYL
AND THE CAUSE OF ITS COLOURATION**

By N Jayaraman

**THE OCCURRENCE AND GEOCHEMICAL ORIGIN OF THE
DOLOMITE MARBLE OF YELLANDU, SINGARENI
(WARANGAL DISTRICT, HYDRABAD, DECCAN)**

By N Jayaraman

**TREMOLITE AND ACTINOLITE FROM THE DOLOMITE
MARBLE OF YELLANDU, SINGARENI**

By N Jayaraman

**A KYANITE-GARNET-MICA SCHIST FROM
SAIDAPURAM, NELLORE**

By N Jayaraman

**A CHEMICAL AND MINERALOGICAL EXAMINATION
OF A COPPER ORE FROM MYSORE**

By N Jayaraman

A THEORETICAL DISCUSSION ON THE CHEMICAL
CONSTITUTION OF GARNETS AS REVEALED
BY X-RAY INVESTIGATIONS

By N Jayaraman

DISSOCIATION CONSTANTS OF ORTHO-HYDROXY
BENZOIC ACID AND γ -RESORCYLIC ACID

By C T Abichandani and S K K Jathar

A PUSH PULL ELECTROMETER-VALVE POTENTIOMETER

By C T Abichandani and S K K Jathar

DISSOCIATION CONSTANTS OF ISOMERIC HALOGENO-
PHENOLS

By C. T. Abichandani and S K K Jathar

A SIMPLE POLAROGRAPH

By C T Abichandani and S K K Jathar

PART VI SELECTIVITY OF HYDROGENATION
CONTINUOUS HYDROGENATION OF OILS

By R V Joglekar and S K K Jathar

ATTEMPTS TOWARDS SYNTHESIS OF CANTHARIDIN

PART III

CONDENSATION OF ETHYL $\beta\beta'$ -DIKETOGLUTARALDEHYDE- $\alpha\alpha'$ -
DICARBOXYLATE WITH α -BROMO ESTERS*

By B H Iyer and P C Guha

AZO-DYES COUPLING OF 5-HYDROXY-3-AMINO-1,1-
DIMETHYL- $\Delta^3,5$ -DIHYDROBENZENE WITH DIA-
ZONIUM AND TETRAZONIUM COMPOUNDS *

By Balkrishna H Iyer

CONDENSATION OF C-ACETYL METHONE WITH
AROMATIC ALDEHYDES *

By Balkrishna H Iyer

ON A NEW METHOD OF SYNTHESIS OF
PHENANTHRENE DERIVATIVES

By P C Guha and S Krishnamurthy

SYNTHETICAL EXPERIMENTS IN THE
CAMPHANE SERIES

PART VI

SYNTHESIS OF HOMOCAMPHORONIC ACID

ON UTILISATION OF INDIAN TURPENTINE OILS

PART I

THE CONSTITUENTS OF TURPENTINE OILS FROM PINUS LONGIFOLIA
ROXB., PINUS EXCELSA, PINUS KHASIA AND PINUS MERKUSII

By P. C. Guha and Arunendra Narayan Roy

ON UTILISATION OF INDIAN TURPENTINE OILS

PART II

CONVERSION OF α - AND β - PINENES INTO BORNYL ACETATE BY
ACETIC ACID IN PRESENCE OF CATALYSIS

By P. C. Guha and Arunendra Narayan Roy

ON UTILISATION OF INDIAN TURPENTINE OILS

PART III

(1) CATALYTIC ISOMERISATION OF α -PINENE AND β -PINENE TO
CAMPHENE (2) SYNTHESIS OF CAMPHOR FROM
PINENE-CAMPHENE MIXTURE

By P. C. Guha and Arunendra Narayan Roy

ACTIVATION AND CLARIFYING PROPERTIES
OF FULLER'S EARTH

PART VII—ACTIVATION OF FULLER'S EARTH

By B. S. Kulkarni and S. K. K. Jathar

REACTIONS OF CHROMATES AT HIGH TEMPERATURES

PART XIII—DECOMPOSITION OF MIXTURES OF CALCIUM
CHROMATE WITH MAGNESIUM OXIDE

By D. S. Datar

REACTIONS OF CHROMATES AT HIGH TEMPERATURES

PART XIV—DECOMPOSITION OF MIXTURES OF STRONTIUM
CHROMATE WITH MAGNESIUM OXIDE

By D. S. Datar

REACTIONS OF CHROMATES AT HIGH TEMPERATURES

PART XV—DECOMPOSITION OF MIXTURES OF CALCIUM CHROMATE
WITH CALCIUM OXIDE AND WITH CALCIUM CARBONATE

By D. S. Datar

REACTIONS OF CHROMATES AT HIGH TEMPERATURE

PART XVI—DECOMPOSITION OF MIXTURES OF STRONTIUM
CHROMATE WITH STRONTIUM OXIDE AND WITH
STRONTIUM CARBONATE

By D S Datar

REACTIONS OF CHROMATES AT HIGH TEMPERATURES

PART XVII—DECOMPOSITION OF MIXTURES OF CALCIUM
CHROMATE WITH FERRIC OXIDE AND WITH
CHROMIC OXIDE

By D S Datar

REACTIONS OF CHROMATES AT HIGH TEMPERATURES

PART XVIII—DECOMPOSITION OF MIXTURES OF STRONTIUM
CHROMATE WITH CALCIUM OXIDE AND OF CALCIUM
CHROMATE WITH STRONTIUM OXIDE

By D S Datar

REACTIONS OF CHROMATES AT HIGH TEMPERATURES

PART XIX—SYNTHESIS AND DECOMPOSITION
OF CALCIUM CHROMATE

By D S Datar

REACTIONS OF CHROMATES AT HIGH TEMPERATURES

PART XX—SYNTHESIS AND DECOMPOSITION OF
STRONTIUM CHROMATE

By D S Datar

RECOVERY OF GLYCERINE FROM SOAP-LYE

By P C. Guha and Ajay Gupta
