

Vol. 23 (Parts VIII—XVI) 1941

SUBJECT INDEX	PAGE
<i>O</i> -acetyl methone, condensation of-, with aromatic aldehydes ...	175
Azo-dyes. Coupling of 5-hydroxy-3-amino-1,1-dimethyl-dihydrobenzene with diazonium and tetrazonium compounds ...	169
Bornyl acetate, conversion of α - and β - pinenes into-	208
Calcium chromate, synthesis and decomposition of ,	291
Camphane series, synthetical experiments in the- Part VI	191
Camphene, catalytic isomerisation of α - and β -pinenes into-	217
Camphene-pinene mixture, synthesis of camphor from-	217
Camphor, synthesis of-, from pinene-camphene mixture	217
Cantheridin, attempts towards synthesis of- Part III	159
Chromates, reactions of-, at high temperatures.—Part XIII	237
Part XIV	251
Part XV	258
Part XVI	269
Part XVII	274
Part XVIII	283
Part XIX	291
Part XX	310
Chromates, reactions of-, at high temperatures.	
Decomposition of mixtures of :	
Calcium chromate with calcium carbonate ...	264
" " with calcium oxide ...	258
" " chromic oxide ...	278
" " ferric oxide ...	274
" " magnesium oxide ...	287
" " strontium oxide ...	287
Strontium chromate with calcium oxide ...	283
" " with magnesium oxide ...	251
" " with strontium carbonate ...	271
" " with strontium oxide ...	269

Ethyl $\beta\beta'$ -diketotetrahydrofuran- $\alpha\alpha'$ -dicarboxylate, condensation of-, with α -bromo esters	.	.
Fuller's earth, activation of-	..	.
Fuller's earth, activation and clarifying properties of- Part VII	..	.
Glycerine from soap-lye, recovery of-	..	.
Homocamphoronic acid, synthesis of-	..	.
5-hydroxy-3-amino-1,1-dimethyl- $\Delta^3,5$ -dihydrobenzene, coupling of-, with diazonium and tetazonium compounds
Indian turpentine oils	<i>See</i> Turpentine oils	
Phenanthrene derivatives, on a new method of synthesis of- α -and β -pinenes, catalytic isomerisation of-, to camphene
" " conversion of-, into bornyl acetate
β -pinene	<i>See</i> α -and β -pinenes	
Pinene-camphene mixture, synthesis of camphor from-	.	.
Pinus excelsa, constituents of turpentine oils from-
Pinus Khasya, " " "	.	.
Pinus longifolia Roxb " "
Pinus Merkusii, " " "
Soap-lye, recovery of glycerine from-
Strontium chromate, synthesis and decomposition of-
Turpentine oils, Indian, on utilisation of-	Part I	...
	Part II	.
	Part III-(1) & (2)	
Turpentine oils from Pinus longifolia Roxb, Pinus excelsa, Pinus Khasya and Pinus Merkusii, constituents of-

Section B—PHYSICS

Crystal magnetism, studies in-	...
Molluscan shells, the elastic properties of-	...
Timber, the elastic and thermal properties of-	...
