

CONTENTS

	PAGE
Part I.—Salt Stains on South Indian Hides and Skins. By V. N. Patwardhan and M. Subramania Sastry	1
Part II.—Chemical Examination of the Root-Bark of <i>Plumbago Rosea</i> , Linn. By M. C. Tummin Katti and V. N. Patwardhan..	9
Part III.—Dilatometric Studies in Enzyme Action. Part II. Contraction Constants of Enzyme-Substrate Reactions. By M. Sreenivasaya and H. B. Sreerangachar	17
Part IV.—Aryl Di- and Poly-Stibinic Acids, Distibinous Oxides and Distibino-Compounds. By Sohrab M. Mistry and Praphulla Chandra Guha	23
Part V.—Bhadravati Wood-Tar and its Utilization. By Y. K. Raghunatha Rao, B. Sanjiva Rao and H. E. Watson	41
Part VI.—The Equilibrium between Dimethyl Ether, Methyl Alcohol and Water. By N. G. Gajendragad, S. K. Kulkarni Jatkar and H. E. Watson	59
Part VII.—Studies in Indian Essential Oils. I. Essential Oil from Leaves of <i>Litsa Zeylanica</i> , Linn. By B. Sanjiva Rao. II. Essential Oil from Flower-Heads and Stalks of <i>Andropogon Kuntzeanus</i> , Hack, <i>Var. Foveolata</i> , Hack. By B. Sanjiva Rao. III. Essential Oil from Leaves of <i>Thymus Serpyllum</i> , Linn. By Jagjit Singh and B. Sanjiva Rao. IV. Essential Oil from Leaves of <i>Cinnamomum Zeylanicum</i> , Breyn. By (the late) V. P. Shintre and B. Sanjiva Rao	71
Part VIII.—Organic Manure from Sewage, Town Refuse and Waste Vegetation. By J. Jagannatha Rao and V. Subrahmanyam	89
Part IX.—I. Studies in Enzyme Action. Part V. Ageing of Amylases in Aqueous Solution. By K. Venkata Giri and V. Subrahmanyam. II. Studies in Enzyme Action. Part VI. Heat Inactivation of Pancreatic Amylase. By K. Venkata Giri. III. Studies in the Proteins of Indian Foodstuffs. Part IV. The Proteins of Fenugreek (<i>Trigonella Fœnum Græcum</i>). By Y. V. Sreenivasa Rau and M. Sreenivasaya	107
Part X.—Studies in Bridge Formation. Part I. Attempts to Synthesise Bicyclic Terpene Derivatives by a New Method. By P. P. Patel and P. O. Guha. Part II. Formation and Stability of a Bridged <i>cyclo</i> Hexenone, 1-Dimethylethane-1:2:2 III 1:4:4- <i>cyclo</i> butane-2-one. By P. S. Mayuranathan and P. O. Guha	125
