

CONTENTS

Vol. 16 (A)—1933

| | PAGE |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| Part I.—Rhaponticin, and Anthraquinone Derivatives from <i>Rheum Emodi</i> , Wall. (Indian, or Himalayan Rhubarb). By M. Ghouse Mohiuddin and M. C. Tummin Katti .. | 1 |
| Part II.—Constitution of the So-Called Dithiourazole of Martin Freund. Part V. Isomerism of Hydrazodithiodicarbonamides, Iminothiobiazoles and Di-R-Iminothiobiazoles. By Shaha L. Janniah and P. C. Guha. Part VI. Isomerism of Hydrazomonothiodicarbonamides, Iminothiobiazolones and Mono thiourazoles. By S. L. Janniah and P. C. Guha | 11 |
| Part III.—Indian Medicinal Plants. Part I. <i>Withania Somnifera</i> . Part II. <i>Swertia Chirreta</i> . By D. N. Majumdar and P. C. Guha | 29 |
| Part IV.—I. The Colouring Constituents of Alkanet Root (<i>Anchusa Tinctoria</i> , Lam.). Part I. The Constitution of Alkanin. By Mangesh V. Betrabet and Gopâl Chandra Chakravarti. II. Note on the Constituents of the Wax from Alkanet Root. By M. V. Betrabet and G. C. Chakravarti | 41 |
| Part V.—The Velocity of Alcoholysis of Esters of Dibasic Acids. By Z. H. Patel and H. E. Watson | 55 |
| Part VI.—I. Dilatometric Studies in Enzyme Action. Part III. Contraction Constants of Enzyme-Substrate Reactions. By H. B. Sreerangachar and M. Sreenivasaya. II. Physiological Products of the Lac Insect. Part I. A Preliminary Investigation. By N. K. Ranga Rao and M. Sreenivasaya | 69 |
| Part VII.—I. Studies in the Proteins of Indian Foodstuffs, Part V. The Alcohol Soluble Protein of Fenugreek (<i>Trigonella Fœnum Græcum</i>). By Y. V. Sreenivasa Rau, B. N. Sastri and N. Narayana. II. The Mucilage of Fenugreek (<i>Trigonella Fœnum Græcum</i>). By C. R. Harihara Iyer and B. N. Sastri | 85 |

| | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Part VIII.—I. Contributions to the Study of the Spike-Disease of Sandal (<i>Santalum Album</i> , Linn.), Part XIII. Investigation of the Hexone Bases. By Y. V. Sreenivasa Rau. | |
| II. Contributions to the Study of the Spike-Disease of Sandal (<i>Santalum Album</i> , Linn.), Part XIV. Study of Mosaics associated with Spiked Areas. By Y. V. Sreenivasa Rau | 91 |
| Part IX.—Physiological Products of the Lac Insect. Part II. Investigation of the Water Soluble Nitrogenous Constituents. By N. K. Ranga Rao | 97 |
| Part X.—Extension of Michael's Reaction. Part III. By Tejendra Nath Ghosh and Praphulla Chandra Guha | 103 |
| Part XI.—Studies in Bridge Formation. Parts III and IV. The Influence of the methyl and carbethoxy—Groups in the Internal Dehydration of <i>gem</i> -Disubstituted Dehydroresorcinol Esters. By P. S. Mayuranathan | 113 |
| Part XII.—Synthesis of Proteins in Plants. Part I. Conversion of Nitrates into Protein in <i>Helianthus Annus</i> , Linn. By K. S. Varadachar | 129 |
| Part XIII.—Contributions to the Study of the Spike-Disease of Sandal (<i>Santalum Album</i> , Linn.), Part XV. The rôle of plant acids in health and disease. By A. V. Varadaraja Iyengar | 139 |
| Part XIV.—The Solubility of Silver Chloride. By P. C. Dave and K. R. Krishnaswami | 153 |
| Part XV.—Contributions to the Physiology of Sandal (<i>Santalum Album</i> , Linn.). Part I. Nature and Extent of Parasitism. Part II. Influence of host on the nitrogen metabolism of Sandal. By Y. V. Sreenivasa Rau | 167 |
| Part XVI.—Indian Coal Tar. By S. K. Ganguly, B. Sanjiva Rao and P. C. Guha | 185 |

Vol. 16 (B)—1933

| | |
|-----------------------------------------------------------------------------------------|---|
| Part I.—Taylor's Frequency Tripler. By P. Rajagopal Pillai and F. N. Mowdawalla | 1 |
|-----------------------------------------------------------------------------------------|---|
