

Sand moulds	113	Turbulence management	
Sandwich shell	99	Turbulent flows	1
SI units	71	Two-stage ammonia	1
Solidification	113	Two-temperature plasma	219
TANT networks	159	Unsteady flow	181
Transport properties	181	Vibrational acceleration	83
Turbulence	83		137

Book Review Index

Android design by Martin Bradley Weinstein, reviewed by M. R. Chidambara	175	Contact mechanics and wear of rail wheel systems edited by J. Kalousek, R. V. Dukkupati and G. M. L. Gladwell, reviewed by S. K. Biswas	231
Applied engineering mechanics : Statics by Aldor C. Peterson, reviewed by L. S. Srinath	166	Electrical transport in solids by K. C. Kao and W. Hwang, reviewed by R. Srinivasan	172
Applied engineering mechanics : Strength of materials by Aldor C. Peterson, reviewed by L. S. Srinath	167	Engineering soil testing by Shamsheer Prakash and P. K. Jain, reviewed by K. S. Subba Rao	168
A brief course on the theory of buckling by L. M. Kachanov, reviewed by K. T. S. Iyengar	169	Filtration of polymer melts, reviewed by Manas Chanda	171
Buckling of thin walled rods by L. M. Kachanov, reviewed by K. T. S. Iyengar	170	Flow in open channels (Volumes I and II) by K. Subramanya, reviewed by N. S. Lakshmana Rao	77
Commercial operations in space 1980-2000 by L. McLucas and Charles Sheffield, reviewed by H. S. Mukunda	134	FORTTRAN programming by Ashok K. Jain and M. N. Keshava Rao, reviewed by Lawrence Jenkins	174
Computer aided power system operation and analysis by R. N. Dhar, reviewed by Lawrence Jenkins	78	Getting started in GPSS by K. S. Dunning, reviewed by V. V. S. Sarma	129
Computers in society : The wheres, whys and hows of computer use by Donald D. Spencer, reviewed by Lawrence Jenkins	173	How to build a computer-controlled robot by Tod Loofbourrow, reviewed by M. R. Chidambara	177

- Information systems—an introduction to computers in organizations by William M. Taggart Jr., reviewed by V. Rajaraman 133
- Introduction to computer applications using BASIC by Richard M. Jones, reviewed by R. Hariharan and H. R. Srinivas 233
- Japan science and technology outlook, reviewed by R. Narasimha 229
- John von Neuman and Norbert Weiner—From mathematics to the technologies of life and death by Steve J. Heims, reviewed by G. Narsimhan 127
- Logic design of digital system by Donald L. Dietmeyer, reviewed by R. Hariharan 130
- Plastics uses in cars and commercial vehicles, reviewed by Manas Chanda 170
- Precast concrete connection details—Floor connections by Stupre, reviewed by K. T. S. Iyengar 135
- Probability and random processes by S. K. Srinivasan and K. M. Mehata, reviewed by D. Ramakrishna 129
- The rocket team by F. I. Ordway III and Mitchell R. Sharpe, reviewed by H. S. Mukunda 230
- Safety and laboratory practice by B. P. Clarke, reviewed by E. S. R. Gopal 80
- Science fiction and space futures, past and present edited by Eugene M. Emme, reviewed by S. R. Jain 163
- Science and technology centres by Victor J. Danilov, reviewed by R. M. Chakraborti 178
- Space—New opportunities for international ventures by William C. Hayes Jr., reviewed by B. N. Raghunandan 133
- Spacelab, space platforms and the future by P. M. Bainum and D. E. Koelle, reviewed by Shashi Kant Shrivastava 165
- Structural engineering through objective questions by Pasala Dayaratnam, reviewed by B. V. Ranganatham 168
- STRUPL 1 : User's manual by M.Z. Cohn, F. Erbatur and A. Franchi, reviewed by S. Anantha Ramu 233
- When the snakes awake—Animals and earthquake prediction by H. Tributsch, reviewed by R. N. Iyengar 136
- Wood and bamboo for rural water supply by Kick van den Heuvel, reviewed by Rama Prasad 80
