

Book Review Index

- Appropriate building materials by Roland Stulz, reviewed by K. S. Jagadish 341
- Basic structural analysis by C. S. Reddy, reviewed by K. S. Jagadish 70
- Being successful as an engineer by W. H. Roadstrum, reviewed by S. G. Ramachandra 237
- Cement chemistry and physics for civil engineers by W. Czernin, reviewed by T. S. Nagaraj 180
- Components for microcomputer design edited by Dave Bursky, reviewed by B. S. Sonde 332
- Computers and social change by Murray Laver, reviewed by N. Vijayaditya 69
- Computer design development : Principal papers edited by E. E. Swartzlander, reviewed by Priti Shankar 333
- Conditional independence in applied probability by P. E. Pfeiffer, reviewed by V. Krishnan 242
- Designing microcomputer systems by Udo W. Pooch, reviewed by M. S. Viswanathan 331
- Dynamics in civil engineering by Alexander Major, reviewed by K. T. S. Iyengar 180
- Electromagnetism and its applications—an introduction by B. Bolton, reviewed by B. I. Gururaj 62
- Electronic devices by F. R. Connor, reviewed by E. S. R. Gopal 68
- Engineering principles of acoustics by Douglas D. Reynolds, reviewed by M. L. Munjal 169
- Experiments in engineering geology by K. V. G. K. Gokhale and D. M. Rao, reviewed by A. Sridharan 179
- Fortran on time-sharing by G. E. Zinsmeister, reviewed by D. N. Seshadri 335
- Fortran programming with applications to engineering by Jack B. Evett and Richard P. Pinckney, reviewed by M. L. Munjal 238
- Going solar—a practical guide to solar water heating by Cleland McVeigh and Diana Schumacher, reviewed by A. Thomas 70
- Good Style by John Kirkman, reviewed by R. Narasimha 71
- Guidance and control 1980 edited by Lousi A. Mourie, reviewed by S. K. Shrivastava 174
- Handbook for limit state design of reinforced concrete members by V. K. Ghanekar and J. P. Jain, reviewed by Prakash Desayi 108
- Handbook of Soviet lunar and planetary exploration by Nicholas L. Johnson, reviewed by S. K. Shrivastava 177
- Handbook of Soviet manned space flight by Nicholas L. Johnson, reviewed by S. K. Srivastava 177
- IC array cook book by Walter C. Jung, reviewed by S. R. Bhat 140

- The ignis fatuus of biogas by J. Van Brakel, reviewed by C. R. Prasad 339
- Introduction to microcomputer programming by Peter Sanderson, reviewed by N. Chakrapani 105
- Introduction to microprocessors by Aditya P. Mathur, reviewed by N. J. Rao 142
- Light current electrical applications—III by A. Simpson, reviewed by B. S. Sonde 63
- Lightning and its spectrum—an atlas of photographs by L. E. Salanave, reviewed by B. I. Gururaj 61
- Limits of plastics uses in vehicle construction in the eighties, reviewed by Manas Chanda 167
- Linear multivariable control theory by Y. S. Apte, reviewed by M. R. Chidambara 239
- Local experience with micro-hydrotechnology by Ueli Meir, reviewed by S. Soundranayagam 245
- Mathematics for technician engineers by George E. Dyball, reviewed by Y. V. Venkatesh 67
- Mechanical vibrations : Theory and applications by Francis S. Tse, Ivan E. Morse and Rolland T. Hinkle, reviewed by M. L. Munjal 171
- Microprocessor systems design and applications edited by Dave Bursky, reviewed by H. P. Jaiswal 175
- Microscopes and their uses by Claude Marmasse, reviewed by S. V. Pappu 178
- Network theory and filter design by Vasudev K. Aatre, reviewed by B. S. Sonde 64
- Prestressed concrete by N. Krishna Raju, reviewed by K. T. S. Iyengar 143
- Principles of process control by D. Patranabis, reviewed by L. M. Patnaik 106
- Processing and uses of carbon fibre reinforced plastics, reviewed by Manas Chanda 242
- Programming programmable calculators by Harold S. Engelsohn, reviewed by K. P. P. Nambiar 334
- Remember the future—The Apollo legacy edited by Stan Kent, reviewed by P. J. Paul 246
- Shuttle/Spacelab : The new transportation system and its utilisation edited by D. E. Koelle and G. V. Butler, reviewed by S. K. Shrivastava 175
- Space-Enhancing technological leadership edited by L. P. Greene, reviewed by S. K. Shrivastava 176
- Space shuttle—Dawn of an era, reviewed by H. S. Mukunda 139
- Thermodynamics of nuclear materials—1979 (Vols. I and II), reviewed by K. I. Vasu 336
- Transport processes and unit operations by C. J. Geankoplis, reviewed by G. Narsimhan 171
- Ultrasonics by A. P. Cracknell, reviewed by S. Krishan 107
- Underground disposal of radioactive wastes (Vols. I and II), reviewed by K. I. Vasu 338
- Uranium evaluation and mining techniques reviewed by K. I. Vasu 337
- Who's who in technology (Austria-Germany-Switzerland edition) edited by Otto J. Groeg, reviewed by S. Soundranayagam 238
