AC_n functions	299	Fluid	79
Adjunct languages	277	Fluid of finite depth	189
Alkali metal formates	41	Formic acid	41
Al-Li alloys	229	Functional dependencies	219
Ammonium dihydrogen phosphate	127	Generalized functions	291
Ammonium nitrate	127	Generalized Meijer-Laplace transformation	291
Annular plates	317	Generating functions	97
Apparent molar volume	41	Graphite furnace	127
Applied shearing stress	311	Gravimetric	237
Argon	115	Green's function	189
Array languages	277	H_2 PE	137
Bitopological space	37	Hydrogen	229
Bivalent chelates of 2-(N-3, 5-dichloro- α -pyridoneimino) ethane sulphonic acid	137	Information	25
Boolean algebra	219	Isomeric xylidine	321
Bounds	109	Jacobi polynomials	97
BV_n functions	299	k convex functions	299
Chomsky grammars	277	Kinetics	143
Complementary principles	211	Krypton	115
Component	37	k th Riemann (Riemann*) derivative	299
Computer algorithm	105	Lead	127
Content and function words	25	Lead-ion selective electrode detector	121
Cross-viscosity	1	Lennard-Jones potential	115
Curved circular plate	17	Linear inertia	17, 317
Cyclotetraphosphazenes	143	Load capacity	17, 317
Density	41	Local connectedness	37
Determination of sulphate	121	Low temperatures	115
Deuterium oxide	241	Lubrication	17, 317
Effect of exposure	229	Manometric method	229
Entropy functions	219	Matrix-multiplication	105
Estimation	241, 321	Metal complexes	143
Filon's method	311	Moderate rotation	1
Flameless atomic absorption spectrophotometry	127		
Flow rate	109		

INDEX

NMR spectroscopy	143
Nitrate determination in water	51
Non-coaxial rotating system	199
Non-uniform atmosphere	89
pH-titrimetric titration	321
Phenylhydrazone—Cu, Ni, Pd complexes	45
Phonemic clause	25
Pipe flow	109
Platinum hexaiodoplatinate	57
Porous	1
Porous material	109
Potentiometric method	51
Prolongations	25
Propagation	311
Quiescent gases	89
Reagent for Cu(II) and Ni(II)	237
Rearrangement of methoxy-cyclophosphazenes	143
Reflection and transmission coefficients	189
Relational databases	219
Response time	17
Repetitions	25
Rhodamine B	57
Salicylaldehyde	133
Scattering	79, 189
Solar flare	89
Source flow	199
Spectrophotometry	57, 133, 241
Spirocyclic and bicyclic phosphazenes	143
Squeeze film	17, 317
Squeeze time	317
Structural studies	45
Stuttering	25
Submerged cylinder	189
Sulphate in natural waters	121
Surface elevation	311
Surface waves	79
Tautomerism	143
Thiosemicarbazone	133
Titrimetric method for sulphate determination	121
Transport coefficients	115
Triphenylphosphazanyl	143
Vanadium(V)	133
Variational principles	211
Viscoelasticity	1
Viscosity	41
Viscous incompressible flow	311
Water	241
Wave motion	311
