

Journal of the Indian Institute of Science  
Bangalore 560 012, India

Volume 73

January-February 1993

Number 1

*Special Issue on Genetic Engineering at IISc*

CONTENTS

P. Ajit Kumar, V. Nagaraja, Umesh Varshney and S. Vijaya	Research activities of the Centre for Genetic Engineering	1
S. Mahadevan, V. Brahmachari and V. Nanjundiah	Developmental Biology and Genetics Laboratory	15
K. P. Gopinathan	Molecular biology of mycobacteria and mycobacteriophages	31
G. Padmanaban	Eukaryotic gene transcription—studies on cytochrome P-450 as a model system	47
H. S. Savithri and A. N. K. Jacob	Organization and expression of single- stranded positive-sense RNA plant viruses	55
Krishne Gowda, Saima Aizaz, P. P. Maiya and C. Durga Rao	Unusual Indian asymptomatic neonatal human rotaviruses: Potential candidates for development of live reassortant rotavirus vaccines	73
K. Muniyappa	RecA protein-promoted homologous pairing and strand <i>in vitro</i> : A model to study the molecular mechanism(s) of gene targeting	83
M. R. S. Rao	Influence of testis-specific proteins on on chromosome behaviour during mammalian spermatogenesis	93
<b>IISc Theses Abstracts</b>		101
<b>Book Reviews</b>		163
