

JOURNAL OF THE INDIAN INSTITUTE OF SCIENCE

EDITORIAL POLICY

The Journal of the Indian Institute of Science tries to foster the objectives of the Institute, namely, to carry out research in Science and Engineering so as to contribute to the scientific and technological progress in general and India in particular.

The following types of articles are considered for publication :

- (a) Original papers of basic and applied research.
- (b) Significant contributions on instrumentation, standardization and applications in technology.
- (c) Short communications, which require rapid publication including those concerning improvement of technique and design of scientific instruments.
- (d) Detailed papers, of which a summary or a short communication has already appeared or those summarizing the work done on a project over a period of years.
- (e) Critical reviews and surveys.
- (f) Invited articles.
