

TITLE INDEX
(VOLUME 37.—SECTION B)

	PAGE
Band-Pass Distributed Amplifier	138
Derivation of Constants of a n -Unit Cascade Transformer	162
Design and Construction of a High-Speed Electronic Differential Analyzer ..	186
Development of a Compression Apparatus and Studies on Heat Transfer and Combustion of Rapidly Compressed and Oscillating Gases—	
Part I	58
Part II	121
Effect of Component Tolerances in Low Frequency Selective Amplifiers—An Analysis	324
Electronic Receiving Relay for Voice Frequency Carrier Telegraph Working	10
Investigations on Artificial Dielectrics at Microwave Frequencies	304
Note on the Circulation Function and the Induced Efficiency of an Eight- Bladed Propeller	103
Precise Method of Determining the Ratio and Phase Angle Errors in High Potential Instrument Transformers	16
Problems Connected with the Rhombus. II. Plastic Torsion	113
Propagation of Microwave Through an Imperfectly Conducting Cylindrical Guide Filled with an Imperfect Dielectric	1
Propagation of Microwaves on a Single Wire—Part I	200
Series of Products of Three Gegenbauer Polynomials	338
Significance of Contact Angle Measurements in Soldering	293
Stored Energy and Recrystallization	179
Studies for a New Hot Air Engine—	
Part I. A Principal Thermodynamic Analysis	224
Part II. A Further Thermodynamic Analysis	261
Temperature Measurements in Low Velocity High Temperature Gas Streams	41
Abstracts	108, 173, 292, 341
