

**Journal of the Indian Institute of Science
Bangalore 560 012, India**

Volume 78

March–April 1998

Number 2

Special Issue on Computational Mathematics

Contents

Preface		79
M. Vanninathan	Design of efficient numerical schemes and qualitative properties of solutions of ODEs and PDEs	81
M. Vanninathan	Wavelets, PDEs and numerical analysis	93
A. S. Vasudeva Murthy	The Constantin–Lax–Majda model for the vorticity equation revisited	109
B. Bharath and V. S. Borkar	Robust parameter optimization of hidden Markov models	119
Vijay Chandru and Michael V. Trick	The search for optimal Lagrange multipliers	131
Book Reviews		153
