Contents

Preface		165
Yasumitsu Miyazaki	High-gain characteristics of integrated optical amplifiers using rare-earth ion-doped garnet thin film waveguides	167
K. Thyagarajan, V. Mahalakshmi and M. R. Shenoy	Mode propagation in planar segmented waveguides with parabolic index segments	175
Anurag Sharma and Pushpa Bindal	Modelling of single-mode diffused channel optical waveguides	183
Talabatulla Srinivas and Yasumitsu Miyazaki	Coupled mode analysis of tapered optical waveguides	201
Naren Naik, A. Selvarajan and R. M. Vasu	A new perturbation solution to the scalar wave equation	213
N. Gopalakrishnan, R. S. Qhalid Fareed and R. Dhanasekaran	Epitaxial nucleation and growth mechanism of III–V compound semiconductors	223
P. S. Dutta, H. L. Bhat and V. Kumar	Stability of planar crystal–melt interface during vertical Bridgman growth of gallium antimonide	235
H. A. Tafti, V. S. Sheeba, K. K. Kamath and P. R. Vaya	Simulation of well-barrier hole burning in QW lasers	241
B. Raghavendra Prasad, S. Raghuvver, P. S. Narayanan and C. K. Subramanian	Studies on dependence of OPC–SBS efficiency on different time scales in molecular gases	249
P. Jayanth, R. Krishna Mohan and C. K. Subramanian	Phase conjugation by two-beam coupling in iron-doped lithium niobate	257
R. Krishna Mohan and C. K. Subramanian	Nonlinear optical wave mixing and switching in dye-doped polymer saturable absorbers	263
J. A. Chakera, P. A. Naik, S. R. Kumbhare and P. D. Gupta	A variable nano-second pulse duration laser pulse slicer based on high-voltage avalanche transistor switch	273
Manuel F. M. Costa	Dimensional inspection of rough surfaces by optical triangulation	279
