Bangalore 560 012, India**

Volume 76

November–December 1996

Number 6

Special Issue on Intelligent Systems–I

Contents

Preface		699
Special Issues on Intelligent Systems – List of contributions		701
Vadhri Srinivas, B. Shekar and M. R. Rao	Intuitive modeling of inter-casual relationships based on cognitive experiments	703
M. C. Mathur	Cross-entropy measure for precedent case selection in case-based reasoning (CBR)	739
G. Uma and T. Siva Perraju	Distributed problem solving in time-constrained domains	751
H. N. Mahabala, G. Raviprakash, B. Jayanthi, V. V. Managoli, S. Neethi, R. Janakiraman, V. Krishnamurthy and V. Seshagiri Rao	Knowledge-based range safety advisor	767
Kamalini Martin, A. S. Ganeshan and H. N. Shivasankar	A knowledge-based design environment for spacecraft	777
Anupam Basu, S. Sarkar, A. K. Majumdar and K. A. Rao	SRT: A knowledge engineering tool for scene recognition	793
R. Veena Vani, K. Jairam Hebbar and P. Subhadra	AMUS-An automatic map-understanding system	813
G. Prem Kumar and P. Venkataram	Realistic abductive reasoning-based fault and performance management in communication networks	827
IISc Theses Abstracts		849
Book Reviews		905
