

**Journal of the Indian Institute of Science  
Bangalore 560 012, India**

*Volume 79*

*May-June 1999*

*Number 3*

**Special Issue on Digital Signal Processing and Communications-2**

**Contents**

Preface		181
Contents		183
J. V. Avadhanulu and T. V. Sreenivas	Matched filtering approach to robust speech recognition	185
C. Chandra Sekhar and J. Y. Siva Rama Krishna Rao	Reordering network as postprocessor in modular approach-based neural network architecture for recognition of consonant-vowel (CV) utterances	197
S. Lakshmipathi and G. V. Anand	Source localization in the ocean by replica subspace intersection method	207
M. S. Kumaran and Suresh R. Devasahayam	Wavelet decomposition of myoelectric reflexes— Time feature extraction of the blink reflex and its use in clinical diagnosis	217
C. G. Hiremath and S. Jayasimha	Burst-mode decision-feedback QPSK demodular design	225
R. Manivasakan, U. B. Desai and A. Karandikar	Broadband teletraffic characterization using correlated interarrival time Poisson process (CIPP)	233
Book Reviews		251
